

# Volentieri!

The app for learning Italian while having fun

- First of all, go to the website: [www.imparosulweb.eu](http://www.imparosulweb.eu) and register with your email and password.
- After you've registered, **unlock** the volume of Volentieri! that you own with the unlock code printed at the start of the book. The instructions for accessing and unlocking the texts on Imparosulweb can be consulted here: <https://www.loesch.it/faq> (ImparosulWeb FAQ in other languages).
- Look for the Volentieri! app on **Apple store** or **Google Play** and download it to your smartphone or tablet.
- Once installed, launch the app and select the ENTER button up top on the right: enter your **Imparosulweb username and password**.
- On the app's HOME page, select the volume that you've unlocked to start doing the exercises.
- The app's content is divided into 7 Units and the course Lessons.
- In the Lesson, you can decide to practise starting with exercises from various **sections**:  
**Vocabulary, Grammar, Communication, Phonetics.**
- The exercises are self-assessed and immediately show you whether you've answered correctly or not. Your score is registered immediately after the answer (the stars up top are coloured if the answer is correct).
- At the end of a section, the exercises with an incorrect answer are presented to you again for you to repeat and improve.
- The overall score appears in the section completed. You can decide whether to proceed with the exercises of a new section or to repeat the same section and improve your score.
- You must complete each section to be able to pass to the next Lesson.
- At the end of each Unit, a **game** is presented that completes the teaching activities in a fun way.
